BRASS-PLATED SCORE COUNTERS

King Charles IX of France would have been royally pleased to have this pool table in his 16th century court (where pocket billiards first flourished). But, alas, he had only a crude triangular table without cushions or even rails. Bank shots were unknown and a kingly fortune was probably spent replacing fragile ivory balls that had rolled off the edge. But today, the Knight gives you the most modern features available on a pool table, plus the elegance of Charle's court. The massive look of this table is accented by wrought-iron-like ring fittings on both sides and a regal brass-plated heraldic shield on each end. And, it's as strong as it looks.

The 3-inch thick honeycomb-core bed is guaranteed to stay flat for 3 years. Hardwood cabinet is finished in cherry. Burn and stain resistant rails. Wedge-lock legs add strength. Top quality 100% wool green billiard cloth. Black, leather-grained vacuum formed plastic corner protectors. End ball return. Includes two 57-inch cues; 2¼-inch balls; triangle; chalk; bridge stick and owner's manual. 44x88-inch playing field. Carton measures 101x59½x11½ inches.

An exciting world of TOYS

..just a phone call away with this Sears WISH BOOK for 1969

..Where imaginative ideas become a reality

.. like this child's "Model T" Fire Engine powered by a real gasoline engine

It has been said that a "Tin Lizzie" could be had in any color as long as it was black. Well here's an exception. This half-scale fire engine is red. Fire engine red. And it's modeled after the famous Ford Model T-10. This turn-of-the-century styling, plus the timeless magic of a fire engine, will prove just as exciting now as when the "Model T" was king.

The angular looks and gleaming brass continue right on up to its non-streamlined, straight-up-and-down windshield. Even the spoked wheels and knobby pneumatic rubber tires look like the originals (although wheels are tough Cycolac® plastic instead of wood).

Budding smoke eaters will enjoy clanging the brass bell and unlimbering the 10 feet of real fire hose. Side-mounted wooden ladders add realism. Steel chassis and body; sleek fiber glass fenders and running boards. Vinyl leather-look upholstery completes the authentic styling.

Reliable 3-HP, 4-cycle Briggs and Stratton engine with recoil starter produces a top speed of 12 MPH. Side-mounted levers operate forward, neutral and reverse gears and the mechanical brake. Throttle is on the steering column. 16x2.125-in. tires. 72 inches long, 36 inches wide, 38 inches high.

NOTE: Engine cannot be licensed or used on streets, highways or sidewalks.

. . like this exquisite hand-painted Dresden China Nativity Set

Over 250 years ago, in the city of Meissen near Dresden, Germany, the first porcelain was made in Europe. Since then, many people have tried to duplicate this fine porcelain. But none have succeeded. Its translucent beauty and unique coloration remains a secret known only to the skilled craftsmen of this area. Dresden China is still the ultimate.

Therefore, we are understandably proud to be able to offer here one of the finest examples of Dresden China available anywhere.

This exquisite Nativity Set, entitled "The Holy Night", is reproduced from an original sculpture created by the German artist, Siegal. It is accomplished with faithful authenticity in every detail—entirely in one piece.

Each of the figures is so finely detailed that even the tiniest fingernails and eyelashes are molded in—not just painted on. The decoration is done in beautiful life-like colors highlighted by 22K gold. The entire piece is carefully hand crafted and hand painted. As such, no two pieces will be identical in either size or color. The result is a magnificent work of art that will enhance any home now—during this Christmas season—and all through the year.

Approximately 20 inches long, 12 inches wide and 12 inches high. Shipped prepaid from New York. Please allow extra time for handling and delivery. Sorry, no C.O.D.

Over 50 years ago, Vincente Llinares of Barcelona, Spain, began making Hurdy-Gurdys and pianos. Before long, his craftsmanship became famous and his instruments were heard everywhere. It's even likely that many of the famous organ grinders of Old New York used Vincente's creations.

A lot of things have happened in 50 years. If anything, the Hurdy-Gurdys made by Vincente Llinares' firm are better now than they ever were. Certainly this model's brilliant, clear sound will kindle a nostalgic sensation in your home when you crank out "Sidewalks of New York."

Actually a Hurdy-Gurdy is a portable barrel organ, and its inner workings are similar to those of a piano. But instead of a keyboard, the Hurdy-Gurdy plays by turning a crank.

The mechanism is housed in a solid wood case which is mounted on a colorful pushcart and held secure by 2 leather straps. Both the organ and its cart are carefully hand finished and decorated until they fairly gleam.

Organ plays 6 tunes, chosen by turning a small selector knob: "Sidewalks of New York", "My Blue Heaven", "Arrivederci Roma", "La Cumpasita", "Lara's Theme" (from "Dr. Zhivago") and "Strangers in the Night".

The organ measures 23½x23½x 17¾-in. high while the rubber-tired 2-wheel cart is 50⅝x20⅞x10¾-in. high.

"It is the universal belief that no one in this country could make copper so malleable as to hammer it hot. I determined to find the secret and have pleasure to say that I have gained it." ..Where imaginative ideas become a reality

. . like these authentic copies of the famous Boulle and Neuchatel Pendulum Clocks

In 17th and 18th century France, under the reign of the great Bourbon kings, a group of skilled artisans created unique objet d'art clocks whose beauty and elegance have never been equaled.

Today, few of these clocks still exist outside of museums and private collections. However, through painstaking research into the original methods of production, we are able to bring you these exact replicas—clocks that duplicate not only the design but also the hand-crafted workmanship of those made hundreds of years ago. Even the bell chimes that count the hours and strike the half-hours are authentic.

Each clock is registered and signed by the artist who made it. 8-day pendulum movement. From W. Germany.

1 Boulle Clock. Named after its designer, Charles Boulle, a protege of Louis XIV. Wood case with tortoise-shell design inlaid with brass and decorated with 23½-karat gold-plated garlands and figure of cast bronze. With matching wall pedestal. 31 in. tall.
Shpg. wt. 24 lbs.
F4 C 7240 . . . . $499.

2 Neuchatel Clock. From the period of Louis XVI. Wood cases are hand crafted, then hand painted with delicate floral designs and hand finished with six coats of clear lacquer. 23¼-karat gold-leaf trim. Matching wall pedestal. 25¾ in. tall.

..Where imaginative ideas become a reality

. . like this chiffon and satin Peignoir Set trimmed with luxurious Marabou

"She walks in beauty like the night
Of cloudless climes and starry skies . ."

Lord Byron's lyric poetry best describes the effect of this elegantly classic peignoir and gown set.

The remarkable softness of rare marabou feathers, the shimmer of satin and the star-bright sparkle of rhinestone buttons reflect the look of luxury you expect to see in nightwear of the very finest quality.

It's designer-created especially for Sears . . fashioned with only the most costly fabrics and individually tailored to her height for a custom fit.

The sweeping Peignoir is lavishly full cut. Two cloud-soft layers of the filmiest nylon tricot chiffon are used throughout. The trim is a satin band of Arnel® triacetate and polyester. Downy-soft marabou rings the collar, cuffs and hem.

The Gown is luxurious nylon satin tricot under a layer of sheer nylon chiffon. For shaping and support, its shirred bodice has a stretch back of nylon and Lycra® spandex, and a built-in bra that's slightly contoured with 100% Kodel® polyester fiberfill.

The marabou trim detaches so both gown and peignoir can be machine washed at warm temperature.

Sent in gift box postpaid from New York. Allow about 3 weeks for delivery. Sorry no C.O.D. orders. Bust sizes 32, 34, 36 and 38.

Please give *catalog number, quantity, name of each item, color, pattern, finish, size, price, shipping weight* and any special information asked for in the description of the item—each time you order.

On cash orders add up the shipping weights of all the items you are ordering and change ounces to pounds (16 ounces to a pound). You'll find parcel post rates below; other helpful shipping information (such as Railway Express rates and estimated freight rates) in our Big Book.

On Sears Credit Terms orders, we ship prepaid and charge your account. The best ways to send money are by post office money order, express money order, by bank draft or check. IMPORTANT ABOUT PRICES

When Sears says "SAVE" you really save. Now, as for years, Sears shows price cuts or savings only on those items we previously listed or on those to be listed in future catalogs at regular prices. With these items, we always state the actual "was" price or "will be" price on which the savings is based. If the description for an item in this book does not include such a statement, that item is offered at our regular low price.

You always get our lowest prices .. if the price of any item in this catalog is reduced in another current Sears Catalog, we will fill your order at the lower price and return every penny of the difference to you. Regardless of which Sears Catalog you order from, you always get the benefit of the lowest current catalog prices. Should the Federal, State or Local Governments increase or impose additional taxes after this book goes to press, we reserve the right to add such taxes to the prices shown. On the other hand, if any of the existing taxes are reduced or terminated while this catalog is in effect, we shall adjust our prices accordingly.

Prices in this catalog apply only to orders placed by mail, telephone, telegraph or in person at a Sears Catalog Sales Office, Retail Store Catalog Sales Department or in one of Sears Affiliated stores.

C.O.D. MAIL ORDERS

For economy's sake we urge you to send a money order or check with your mail order, or to use Sears Credit Terms. On parcel post C.O.D. shipments, the Post Office charges you a C.O.D. collection fee. They also charge you a money order fee for sending payment to us.

We do not ship C.O.D. orders for live animals or birds, perishable goods or for merchandise cut, engraved, printed, or made to order; for merchandise shipped direct from factory or shipped to foreign countries or to anyone other than person sending order.

Sears

Revolving Charge Account

This is the Credit Card

that makes Christmas Shopping Easy

Forget about the crowds and bad weather..with a Sears Revolving Charge Account all you do is pick up a phone—call Sears and say "Charge It"! It's that simple...

No money down or minimum purchase required when you use your Sears Credit Card. If you wish, pay your charge each month within 25 days of billing date (with NO FINANCE CHARGE) or, if you prefer, spread your payments out over months; if you choose to do this, your monthly payments ($10.00 minimum) will go up or down, depending on your balance and a FINANCE CHARGE will be added each month.

We send you a statement of your account every month. Makes bookkeeping so much easier for you—a complete record of your purchases is always available.

You can open your account now—and order later. There is no need to send an order when you open your account . . . open it now—we will send you your Sears Credit Card. You can start using it whenever you wish.

It's easy to start your account—here's how—Simply fill in the application and sign the agreement on the following page — send it to Sears. Or you may open an account by telephone—just by calling the most convenient Sears unit. Tell our phone clerk you want to open a revolving Charge Account; she will take your application and your order at the same time, if you wish; or visit any Sears store — they will gladly answer any questions you may have and fill out your application for you.

Maintenance agreements and charges for service and installation of Sears merchandise may also be added to your account.

You never need to figure delivery charges—we prepay them. Sears own people will figure postage, freight or delivery charges on your order—send your package off to you prepaid and add the charges to your account.

You don't need to keep money on hand to pay C.O.D. charges. Because the entire amount has been charged, you don't need to pay our driver. Leave home for the day if you wish; a note will tell the Sears driver to leave your package at a neighbor's.

Picking up your order is easier. No delay or money to pay. Your Sears Credit Card shows you are a "charge customer."

Any Sears Store or office nationwide will accept your Sears Credit Card. Wherever you are in all these United States your credit is good—on vacation, on business trips, in any place there is a Sears unit. Just show your Sears Credit Card. Sears will be glad to take your "Charge" order wherever you are!

SHIPPING INFORMATION

PARCEL POST SHIPMENTS: On all articles for which you pay shipping charges, the shipping weight is given in the catalog description. Enter the total shipping weight for each article in the shipping-weight column of the order blank. Add the pounds and ounces, then change ounces to full pounds (16 ounces equals 1 pound), and enter total weight in pounds. The post office counts fractions of a pound as a full pound and charges postage accordingly. For example: If your order totals 6 pounds and 30 ounces, allow postage for 8 pounds (30 ounces equals 1 pound and 14 ounces, therefore 1 pound 14 ounces plus 6 pounds equals 7 pounds 14 ounces and the post office will charge for 8 pounds).

See chart at right. If you live in Zone 3 or within 151 to 300 miles from Catalog Order Plant, the amount of postage to allow for 8 lbs. is $1.00. If you send more than the effective parcel post rates, we will return the extra amount. Be sure to show your parcel post zone number.

FREIGHT OR EXPRESS SHIPMENTS: While express is faster, freight is the most economical way to ship heavy, bulky merchandise. Before marking method of shipment on order blank, compare freight and express rates in the yellow section of Sears Fall catalog.

When ordering on Sears Revolving Charge Account or Easy Payment Plan, shipping charges are added to your account. No need to figure shipping charges.

NOTE: On cash orders, if there is no freight agent in your town, include money with your order to prepay shipping charges.

TRUCK SHIPMENTS: Not all trucking companies make deliveries to a home address. This can be verified by checking with your trucking company's local agent.

If shipment is to be made to your home and you live outside of town, also give your highway route number and some identifying landmarks. Trucking companies frequently make additional charges for second delivery. Avoid this by arranging to have someone accept shipment when merchandise is delivered.

On cash orders it is not necessary to send money to pay for truck transportation charges on your order. You pay shipping charges to truck driver when goods are received.

HOW TO SEND MONEY: The best way to send money is by post office money order, express money order, or by bank draft or check. The mail carrier will buy a post office money order for you if you live on a rural route. It is better not to send postage stamps, coins or paper money. If it should be necessary, be sure to send your order by registered mail.

Ted Williams QUALITY

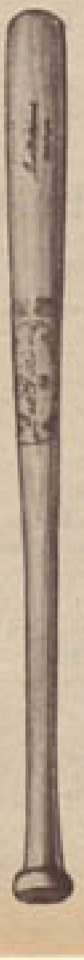
Ted Williams thinks a glove should make you feel like a born fielder *.. this one from Sears does*

$9.99



Sears came up with an idea for a fielder's glove different from any you've ever tried . .

Just slip it on and you'll know why. It feels like it's already broken in . . the fingers follow the natural curve of your hand . . it's got a deep natural pocket that traps flies almost automatically . . made of top-grain steerhide with real rawhide lacing. All these features could mean seasons of phenomenal fielding.

Take it from Ted Williams: This new glove doesn't look or feel like any other you've ever tried. Sears designed it that way for one reason: You'll feel like a born fielder right off the bat. Wear on left hand. Why not pick up the phone and order it?

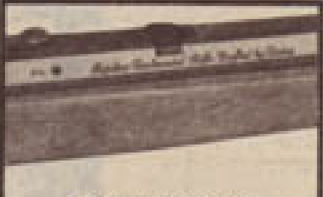
Centennial Model BB Gun



Classic "Old West" type octagonal barrel

Husky saddle ring

Barrel inscribed "Centennial Model"

Exclusively at Sears . . this Spittin' Image® replica of the "Centennial 66" Carbine

$19.99

When you own this BB gun, it's like you own a part of the old west. The cowhand's lever-action gun was as important as his horse, for he had to fight both nature and hostile enemies to exist in that harsh land. In looks, feel and action it is truly the spittin' image of the famed saddlegun after which it is styled.

The 2-way lever action is smooth and sure. Cocks half way on forward and half way on back stroke. Before this gun can be fired, the hammer safety must be cocked. There's less chance of an accidental discharge. The receiver, forearm cap and butt plate are finished in bright gold-color plastic.

Stock and forearm are of super-strength plastic with wood grain look. Buckhorn rear sight is fully adjustable. Blade type front sight. Crisp trigger action has 5 pound pull. Under-barrel magazine holds forty BB's. Simply push feed handle toward muzzle end and release . . 10 BB's are loaded into gun. 38½ inches overall. Actual weight 3.55 pounds.
6 C 19052C—(Shipping weight 5 pounds) $19.99

BEFORE ORDERING: Read Sears Policy Regarding the Sale of Guns and Ammunition, page 415B. All air guns sent prepaid to pickup points; see page 415B.

Single-speed with mag rear wheel like the ones you see on nitro burning dragsters

$68.95 cash

Those dragsters you've seen look like hot cars, and when they lay rubber, you know they are. To give you the same excitement, Sears built this Screamer from the ground up. We started off with the exclusive mag wheel. Then we added a cheater slick rear tire that puts more rubber on the road, and a mini 16-inch front wheel. The low slung aerodynamic frame has powergrip highrise handlebars. Safety "stick" controlled caliper rear brake also equipped with a reliable Bendix coaster brake in the rear hub.

The flamboyant two-tone paint job is a tasty lime with green. 23 to 28-inch leg reach.
